ABOUT US

Custom Patch Hats is the world’s go-to hat company. We specialize in patch hats, producing the highest quality custom patch hats on the market. We also offer direct embroidery, and all kinds of apparel and accessories suitable for embellishment.

What started in a living room with a borrowed sewing machine has grown to a multi-facility operation with over 75 employees. What hasn’t changed is our devotion to quality, customer service, and the people we work with.

This catalog barely scratches the surface of what we can create for you. In it you’ll find the different types of patches we offer, our most popular hats, and dozens of design ideas.

At Custom Patch Hats, we strive to create innovative apparel with thoughtful customization, inventive attachment methods, and enduring quality, while always providing the hat-loving human touch and unparalleled service our customers deserve.

What To Expect

Your experience at Custom Patch Hats will be unparalleled. Working one-on-one with your designer to assemble your hat order, you’ll have expert, guided input when you need it.

Once your order gets underway, we bring you into the proofing process to ensure you are happy with the patches and embellishments before the order is completed.

When all the pieces are in-house and approved, our production team hand-stitches your patches on, painstakingly trims embroidery threads, or carefully positions your hats on the heatpress machine. At every step, and specifically right before packaging, your items are given intensive quality checks.

Should items make it your door with defects, imperfections, or fall short of your expectations in any way, please let us know so we can come to a resolution you will be happy with!

We appreciate your business and look forward to seeing you wearing your hats!

We offer a wide variety of patch types and embellishments. Some designs will work better in one type compared to another. Your designer will guide you as to the best patch type for your artwork. We can also create and modify designs to ensure your art looks its best in your preferred patch type. The beauty of custom patches is that we can create what you want, so don't hesitate to tell or show us your vision.
